

D'ANDREA

D'Andrea's Agricultural Machinery Division is one of the most traditional in the market.

With time-honored equipment we have everything you need to produce more and better each season..

Toasted Cassava Flour LINE

Agricultural
Segment

D'ANDREA DAM-TCF

1 WASHER PEELER

- Manufactured in 2 systems, interleaved and continuous load;
- Equipment with trolley for discharge, showers, registers, gear reducers and intermediate.

*Optional: Load hopper.

TYPE	CAPACITY	HP	REQUIRED AREA (m)
Rot 3	1600	3	ø 1,20 x 1,50
Rot4	3200	5	ø 1,20 x 2,00
Contl.	6500	8	ø 0,90 x 0,80

2 GRATER

- Equipped with automatic root presser, interchangeable saw rotor, hopper, grease outlet spout and metal frame.

TYPE	CAPACITY	HP	REQUIRED AREA (m)
3	4800	5	ø 0,40 x 1,40
ESP	6500	10	ø 0,65 x 1,50

3 HYDRAULIC PRESS

- Equipped with ø6 "steel sleeve and cap, pressure pump, pressure gauge, relief valve, drains, registers, 2 or 4 steel tie rods and head. These presses operate at pressure up to 3000 lb (type 2) and 5000 lb (ESP type).

TYPE	CAPACITY	HP	REQUIRED AREA (m)
2	2000	3	ø 1,00 x 2,50
ESP	4000	3	ø 1,20 x 4,20

4 BREAKER SPARELER

- Equipped with rotor with interchangeable saws, thin mass vibrating screen, hopper and metal frame.

TYPE	CAPACITY	HP	REQUIRED AREA (m)
3	4800	3	ø 0,90 x 1,75
ESP	6500	5	ø 0,90 x 1,75

5 ROTATING OVEN *(For light flour)*

- Metal construction with 3/16 "plate reinforced structure, hopper and mass distributor vibrating screen, hand-controlled rotary brush flour discharge system.

* For heavy flour (baiana) we manufacture the planetary type oven and for super light flour the half-ball oven.

TYPE	CAPACITY	HP	REQUIRED AREA (m)
1	600	1	ø 3,00
2	1200	2	ø 4,00
3	1600	3	ø 5,00
4	2500	3	ø 6,00

6 FLOUR CLASSIFIER

- Equipped with fine flour vibratory separator, fiber separation airflow separator, biju breaker and bagging nozzles.

TYPE	CAPACITY	HP	REQUIRED AREA (m)
3	4800	3	ø 1,00 x 1,60

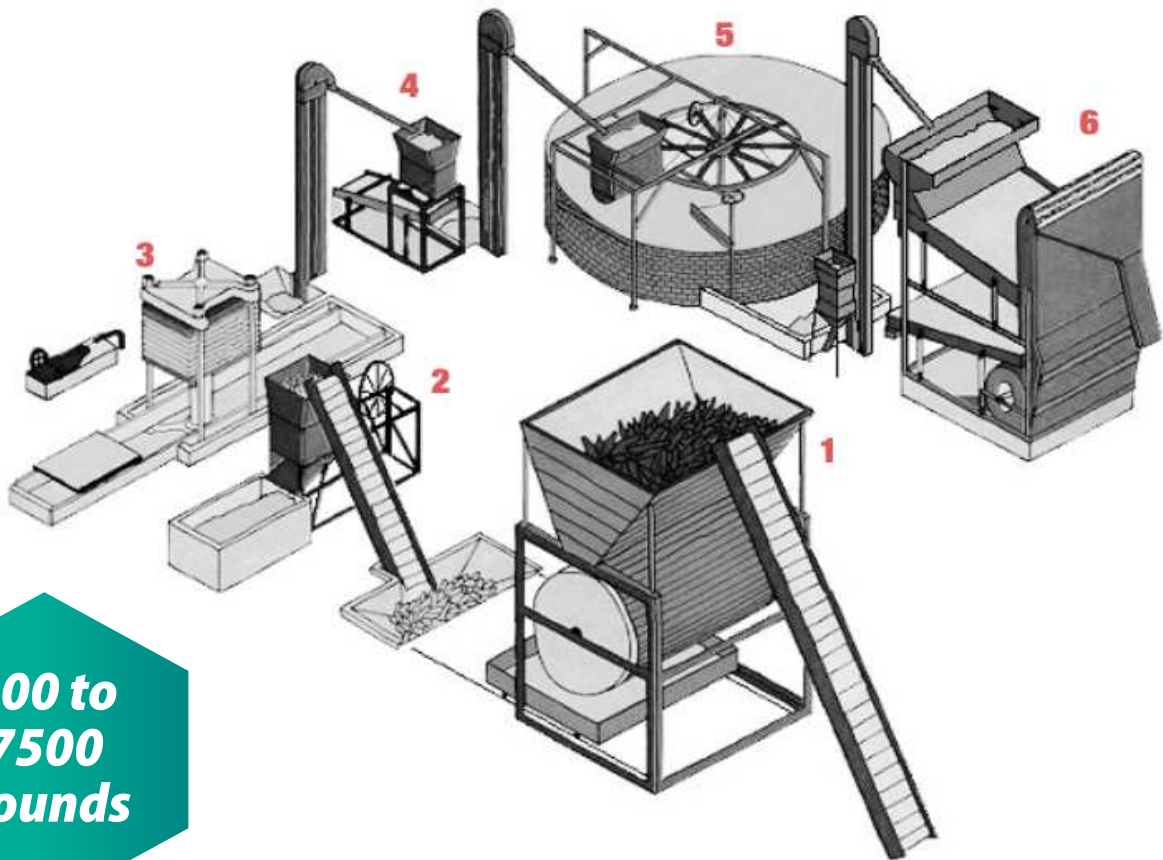

CRUSHER

- Equipped with floating steel hammers, exchangeable sieves according to the desired granulation in the flour, hopper and outlet spout.

TYPE	CAPACITY	HP	REQUIRED AREA (m)
1R	500	3	ø 0,50 x 0,50
2	1000	10	ø 0,60 x 0,80

D'ANDREA

TRUST AND TRADITION BRAND

For almost a century we have built machines that still produce and tells to world our trajectory.

With machines in more than 100 countries we pride ourselves on build the progress, enabling to all our customers to compete in one increasingly efficient industry.

Specialists in technology our team continues working to offer the best machines with the best relation of value versus benefit.

Strong machine is
D'ANDREA machine
